

AT THE END OF YOUR ROPE WITH YOUR CHILD?

- HAVE YOU BEEN TOLD BY TEACHERS OR DAYCARE PROVIDERS THAT YOUR CHILD HAS DIFFICULTY STAYING FOCUSED ON HIS OR HER WORK, BECOMES DISTRACTED EASILY, CANNOT SIT STILL, AND ACTS WITHOUT THINKING?
- HAVE THEY ALSO MENTIONED THAT YOUR CHILD OFTEN SEEMS ANXIOUS, IS OVERLY SENSITIVE TO CHANGES IN THE ENVIRONMENT, OR CHANGES MOODS RAPIDLY?
- DO YOU GET PHONE CALLS, OR HEAR AT CONFERENCES THAT YOUR CHILD OFTEN TALKS BACK TO COMPLY WITH AGGRESSIVE TOWARDS TEACHERS, REFUSES TO DIRECTIONS, OR IS OTHERS?

OR...

- IS YOUR CHILD WELL BEHAVED AT SCHOOL, BUT THEN COMES HOME IRRITABLE OR DEPRESSED AND FREQUENTLY “FALLS APART”, ENGAGING IN EXPLOSIVE TEMPER TANTRUMS, RAGES, OPPOSITIONAL DEFIANT BEHAVIOR (ESPECIALLY WHEN YOU SAY “NO”) AND AGGRESSIVENESS WITH FAMILY MEMBERS, PARTICULARLY SIBLINGS?
- IS YOUR CHILD CURRENTLY BEING TREATED FOR ATTENTION-DEFICIT/ HYPERACTIVITY DISORDER (AD/HD) AND THE MEDICATION JUST DOESN'T SEEM TO WORK, AND IN FACT, YOUR CHILD APPEARS TO BE WORSE?

IT IS POSSIBLE THAT YOUR CHILD IS EXPERIENCING BEHAVIORS
ASSOCIATED WITH
BIPOLAR DISORDER.

IF YOU HAVE CONCERNS THAT YOUR CHILD MIGHT HAVE BIPOLAR DISORDER, WOULD LIKE MORE INFORMATION, OR DESIRE AN ASSESSMENT TO EVALUATE YOUR CHILD'S BEHAVIOR, CONTACT **BACHMANN AND ASSOCIATES**. **BACHMANN AND ASSOCIATES** ALSO PERFORMS ASSESSMENTS FOR OTHER CHILDHOOD MENTAL HEALTH DISORDERS, INCLUDING AD/HD, ANXIETY, DEPRESSION, ATTACHMENT DISORDER, OR LEARNING PROBLEMS.
